PROFILE

Multidisciplinary designer with five years of experience in product and experience design, now building an independent practice across art direction and creative production. I connect audience insight, visual storytelling, production planning, and systems thinking to carry an idea from concept to final frame or interface.

CREATIVE PRACTICE

Founder / Art Direction & Creative Production Jay Studio / Independent practice

2026—Present

- Develop concepts, treatments, moodboards, storyboards, shot lists, and visual systems for film, photography, social content, and digital experiences.
- Plan and direct small productions from pre-production through shoot decisions, edit feedback, and delivery review.
- Selected independent work: AUREA / Beyond Ordinary, DELISHIO / Taste the Cold, and Sidi Bou Said / The Blue Story.

PRODUCT & EXPERIENCE DESIGN

UX/UI Designer FORVIA Faurecia / Palantir Foundry

May 2023—Jun 2025

- Designed data-heavy enterprise dashboards and use cases, turning complex operational workflows into clearer decision-making experiences.
- Built and documented reusable design-system patterns for designers and developers; conducted UX audits and facilitated an R&D ideation workshop in Paris-Nanterre.

UX/UI Product Designer Addinn Group

Oct 2020—May 2023

- Led discovery and product design across HR, agriculture, and financial products through interviews, journey mapping, prototyping, testing, and iteration.
- Translated ambiguous requirements into buildable product direction while balancing user needs, business goals, and technical constraints.
