

JAWHER HAMDI

ART DIRECTION / CREATIVE PRODUCTION / PRODUCT & VISUAL DESIGN

Tunis, Tunisia / Open to relocation and international remote work
+216 22 085 367 / hamdijawher@icloud.com / jawherhamdi.com / [LinkedIn](#)

PROFILE

Multidisciplinary designer with 5+ years leading work across enterprise data products, financial services, design systems, marketing design, campaigns, presentations, film, and photography. I connect art direction with product rigor: defining the central idea, aligning people around it, and carrying it through visual language, production, interface, and delivery.

CREATIVE AND DESIGN LEADERSHIP

Concept development / art direction / campaign systems / team leadership / workshop facilitation / product strategy / data UX / design systems / visual storytelling / photo and video production / executive presentations

CREATIVE PRACTICE

Founder / Art Direction & Creative Production

2026 - Present

Jay Studio / Independent practice

- Build creative territories from audience insight and positioning, translating the central idea into treatments, moodboards, storyboards, shot lists, campaign systems, and digital touchpoints.
- Direct small film and photography productions from pre-production and visual planning through on-set decisions, edit feedback, post-production, and rollout review.
- Shape collaborators around the work, setting the creative standard while coordinating design, image, motion, styling, and production needs.
- Selected independent work includes AUREA / Beyond Ordinary and Sidi Bou Said / The Blue Story.

EXPERIENCE

UX/UI Designer | Data UX & Design Process Leadership

May 2023 - Jun 2025

FORVIA Faurecia / Palantir Foundry

- Led the end-to-end design process for data-heavy enterprise applications, from discovery, workflow mapping, UX audits, and ideation through prototypes, interface direction, specification, and developer handoff.
- Created and governed a reusable design system for Palantir Foundry applications, aligning foundations, components, dashboard patterns, documentation, and design review across teams.
- Led designers through critique, prioritization, and quality review while aligning product owners, technical teams, and stakeholders around a coherent experience direction.
- Designed and facilitated R&D brainstorming workshops in Paris Bercy and Nanterre, turning complex innovation topics into structured concepts, scenarios, and next steps.
- Extended the work beyond product screens through presentations, photo and video content, and campaign-style storytelling for innovation and internal communication.

UX/UI Product Designer | Creative & Marketing Design

Oct 2020 - May 2023

Addinn Group

- Led discovery and product design across SynapseHR, Smart Web Pay, Lait's Collecte, and financial-service products using interviews, journey mapping, UX audits, prototyping, testing, analytics, and iteration.
- Worked across marketing design and art direction, shaping campaign visuals, presentations, sales and communication materials, and photo and video content alongside the product work.
- Led designers and set visual quality across interface, marketing, and communication touchpoints, keeping the product and brand story coherent from concept through delivery.
- Translated ambiguous business and technical requirements into clear product direction while presenting recommendations to stakeholders and product owners.
- Used behavioral evidence and closed-beta feedback to refine critical financial flows around clarity, security, recovery, and user confidence.

SELECTED CREATIVE AND PRODUCT WORK

AUREA / BEYOND ORDINARY

Independent hospitality campaign study - Creative and art direction, treatment, film, photography, newspaper concept, and social rollout.

FORVIA / PALANTIR APPS

Enterprise data experience - Design-process leadership, UX audits, reusable design system, dashboard direction, R&D workshops, and innovation storytelling.

SMART WEB PAY

Parking-payment service - Research, product strategy, experience direction, visual design, testing, and a scalable service-system foundation.

SIDI BOU SAID / THE BLUE STORY

Independent destination film - Concept, visual direction, location study, production, edit direction, and a place-led narrative built through rhythm and detail.

CAPABILITIES

Art direction: concepts, campaign worlds, visual language, treatments, moodboards, storyboards, references, visual quality control

Creative production: photo and video planning, shot lists, locations, props, on-set decisions, edit feedback, presentation and rollout assets

Product and visual design: data UX, interaction design, prototyping, design systems, accessibility, dashboards, service journeys

Leadership and strategy: team direction, critique, stakeholder alignment, workshops, research, UX audits, product definition, presentations
